Grocery Savings Challenge

GravyStack families saved on average 28%, or \$28 on a \$100 grocery bill with this challenge!

It may not seem like discounts and coupons make much of a dent once you get to the register, but when those savings are written down in black and white--they really CAN add up! Look at some popular coupon websites and check your weekly mailers for coupons for your favorite items!

This is exactly what the Grocery Savings Challenge is all about! Use this worksheet to track savings on your 3-5 most-purchased grocery items.

Grocery Item	Regular Price (input total below)	Savings Found	New Price with Savings (input total below)

Regular Price
Total:

New Price
Total:

TOTAL Grocery Savings

Subtract the New Price Total from the Regular Price Total to see how much you can save!
